Instruction focuses on developing a range of culinary skills including, knife skills, food preparation and presentation and how to work safely and hygienically in a working kitchen environment.

OBJECTIVES

- Gain an understanding of basic culinary concepts
- Improve the ability to make quick (and correct) decisions
- Create new dishes by understanding how different flavours combine and complement each other
- Learn both local and international recipes
- Develop a sense of satisfaction and accomplishment in cooking original meals

OTHER BENEFITS

- Expand culinary-related vocabulary
- Practise basic mathematical concepts
- Gaining a better understanding of food preparation can also promote self-confidence and lay the foundation for healthy eating habits
- Develop 21C skills: creativity, communication, collaboration and critical-thinking
- Improve problem-solving skills

TECHNICAL TRAINING:

Technical training forms the core part of food Innovation sessions and is specifically designed to inspire and engage young chefs of the future into the world of cookery. Students learn the fundamentals of preparation of hot and cold food and presentation skills of both local and international recipes.

FOOD TECHNOLOGY:

Students gain a better understanding of where their food comes from and learn skills such as balancing flavours to improve recipes, time management and basic kitchen hygiene.

INJURY PREVENTION:

Sessions include useful tips on handling and operating kitchen hardware and appliances, promoting a safe working environment.
